

I disagree TOTALLY with the idea of removing the restrictions on media ownership. I think that being able to hear different points of view in the news is what democracy is all about. If corporations or conglomerates are allowed to end up owning all of the media in an area, for instance, there will be undoubtedly be bias in the news. (And if you don't believe me, look at FOX news! It is no secret that FOX news is biased.) Please do not weaken the very foundation of our democracy. Shelley Nixon (past member of the FCC CDTAC committee)
